

Private Residence in Vila Nova de Milfontes (Part II)

Odemira, Portugal

Two of the bathrooms of this residence, stand-out.

We have supplied **Silver Travertine** for the guest toilet. This material is present in the washstand - our Cubic model - and in one wall.

In the "master bathroom" the beautiful **Bianco Carrara** marble was the material chosen for the walls (polished) and shower-tray (sandblasted).

Contact us to get to know our complete collection for washbasins, like the Cubic one present in this project!
