Head Offices of Macedo Vitorino & Associados

Lisbon, Portugal

The excellence of the **Bianco Carrara** marble in one of our most prestigious projects we ever had.

Of a white background and constant grey veining, the marble Bianco Carrara creates the most difficult: the classical modern design. Clean areas, perfect lines and modern colors in a classical marble, of clear and defined veining structure and conventional application.

At these offices of the layer firm Macedo Vitorino & Associados, in Lisbon, the marble Bianco Carrara was applicated in general pavements in clients reception areas, meeting rooms and staircases.
