

# Modern and Charming Bathrooms

Dafundo, Oeiras, Portugal

In the family bathrooms, one in **Travertino Romano** and the other in **Noce Travertine**, there is a sober architectural design.

The view over the sea gains priority and the travertines do not overshadow, but complete the picture in a memory of the sand tones. The materials give these spaces a feeling of well-being and comfort.

The visitors' bathroom is bolder: a prominent wall covered with **Forest Brown** marble (also polished) that takes us to exotic atmospheres on the other side of the planet.

A job impeccably carried out by our team.
