

Fabulous Onyx Green Light

Restelo, Lisbon, Portugal

In the Lisbon area of Restelo a fabulous house demarks itself with a double-façade and spectacular interiors on Onyx Green Light. The “double-façade” in Onyx takes the maximum outcome from the translucent characteristics of this material... the pictures tell us all! In the interiors, pavement of the living-room, fireplace and restroom are faced in Onyx Green Light in a perfect continuity of the façade’s panel. A note also to the book-matching of the veins.
